

## **Trainee Accountant**

### The Role

We are seeking to recruit a high calibre, driven and ambitious individual looking to gain a Professional Accountancy qualification whilst working in Industry.

Working as part of the Finance function in our West Dublin office, the candidate would develop their knowledge of the company and Industry as a whole, whilst studying for their professional qualification (the company will provide support towards this) and enhancing their technical skills.

There will be the opportunity for involvement in cross-functional projects, which will provide strong exposure to all aspects of the business.

Duties and responsibilities for the role would include, but not be limited to:

- Supporting the day to day activities of the Finance function
- Assisting with the month end and year end close processes
- Involvement in the annual budgeting / forecasting processes
- Reviewing and analysing detailed management information
- Involvement in product costing and stock management
- Providing finance insight to cross-functional projects
- Liaising with external stakeholders
- Ad hoc projects as required

### Requirements

- Minimum Level 6 qualification in Accounting / Finance / Business or related subject
- An understanding of business in Ireland, with experience in Manufacturing viewed favourably
- A genuine interest in obtaining an accounting qualification
- Strong communication skills
- Strong Excel skills
- Ability to process and review information, and provide insightful findings
- Can demonstrate an ability to work with others
